## DETAILED ACTION

### *Information Disclosure Statement*

1. The information disclosure statement (IDS) filed has been considered by the examiner.

### *Priority*

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### *Claim Rejections - 35 USC § 112*

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 8-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 refers to the "two semiconductor wafers" in paragraph 3 of the claim. This term lacks antecedent basis and therefore renders the claim indefinite and confusing. All dependent claims are rejected under 35 USC 112 for the same reasoning.

### *Claim Rejections - 35 USC § 102*

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Kawakubo et al., US Patent Number 5,863,680.

The scope of the claims is described, taught and suggested by the prior art reference at column 4, line 7 through column 6, line 51.

Art Unit: 1756
